SHALU GUPTA
QA(MANUAL TESTER)

PROFILE

As a Manual Tester I analyze requirements, create test plans, and execute various tests (functional, exploratory, regression, UAT) to ensure software quality. I identify and document defects, collaborate with teams to resolve issues, and prepare detailed test reports to deliver user-friendly and reliable applications.

WORK EXPERIENCE

42Works   MAY 2025-PRESENT

- As a Quality Assurance Engineer at 42 Works I perform tasks like analyzing project requirements, creating and executing detailed test cases, conducting Exploratory, Functional, UI, Regression, Retesting , UAT, Usability Testing and WordPress backend Testing. I identified and documented bugs, Collaborated with developers to resolve issues, ensured smooth user experience and prepared comprehensive test reports for delivering quality software solutions.

Teacher

PROJECTS

- **Bitnetto/Tomax**
  - It is a platform that allows users to buy, sell, and swap cryptocurrencies seamlessly offering staking opportunities and rewards users for completing KYC and reporting bugs through its bounty program.

- **Nirol Sales**
  - Nirol Sales is a platform that helps overcome end-to-end delivery issues by enabling ASMs and RSMs to manage sales and update meeting records with professionals. The platform also allows owners to monitor ASM and RSM activities through distance tracking for better oversight.

- **TimexBlockchain**
- **Worked on CMS(Wordpress /Shopify)**
- **MLM Project**
