PROFILE SUMMARY

React Native Developer with 4 years of experience building high-performance Android and iOS apps using React Native, JavaScript, TypeScript, and Redux. Experienced in REST API integration and the complete app lifecycle, including development, debugging, and Play Store/App Store deployment.

SKILLS

- Mobile Development: React Native, React Navigation, Reanimated, Gesture Handler
- Programming Languages: JavaScript (ES6+), TypeScript
- State Management: Redux, Redux Toolkit, Context API
- APIs & Networking: REST APIs, React Query
- Databases & Storage: Firebase, Supabase, MMKV, Secure Storage
- Real-Time & Payments: Agora SDK, Stripe Integration
- Web3 & Blockchain: Ethereum, Tron, BNB Chain, Polygon
- Wallet & Security: BIP-39 Mnemonics, Secure Key Management, Encryption
- Integrations: RocketX, Changelly, ChangeNOW, 0x(matcha), Onramper
- Tools & Deployment: Android Studio, Xcode, Git, Play Store, App Store

WORK EXPERIENCE

React Native Developer
APRIL 2024 – PRESENT
Antier Solutions Pvt. Ltd., Mohali

- Developing secure, blockchain-based mobile applications using React Native.
- Integrated REST APIs and third-party SDKs for wallet, payment, and transaction features.
- Implemented scalable and optimized state management using Redux Toolkit.

React Native Developer
August 2022– April 2024
CodeBrew Labs, Chandigarh

- Built and maintained multiple production-grade mobile applications across diverse domains.
- Implemented complex UI flows and smooth animations using Reanimated and Gesture Handler.
- Integrated REST APIs and efficiently handled loaders, error states, and edge cases.
- Utilized Redux and Context API for scalable and maintainable state management.
- Mentored junior developers and contributed to peer code reviews.
- Managed multi-environment builds and supported app release workflows.

React Native Developer Intern
February 2022 - August 2022
CodeBrew Labs, Chandigarh

- Contributed to real-world React Native applications during the internship period.
- Assisted in UI development, API integration, and bug fixing.
- Gained hands-on experience with React Native fundamentals, Redux, and REST APIs.

EDUCATION

2024 – Present
SHARDA UNIVERSITY, GREATER NOIDA

- Master of Computer Applications

2018 – 2021
POST GRADUATE GOVERNMENT COLLEGE,

- Bachelor of Arts

LANGUAGES

- English
- Hindi

KEY PROJECTS

- **XSPA** – Scratch-built blockchain application integrating card features and multi-chain support (Ethereum, BNB, Polygon, Solana, Tron).
- **Gala Wallet** – Secure wallet application using GalaChain APIs and blockchain authentication.
- **Key Wallet** – Multi-network crypto wallet with token swap functionality and secure transaction flows.
- **Peru Cabs** – Cab booking application with real-time user flows and Redux-based state management.
- **TowFinder** – Location-based service application connecting users with nearby towing services.
- **Attorney Shield** – Subscription-based application with in-app purchases and optimized API caching.
- **Udkay** – Food and grocery delivery application with complete UI revamp and API integration.
