SUMMARY

Results-driven **Flutter Developer** with expertise in building scalable, high performance mobile apps using Flutter, Dart and Firebase. Skilled in state management (Provider, GetX) interacting wearable SDKs, third-part APIs and backend systems (Node.js, Cloud Functions). Proven ability to deliver cross-platform solutions in the healthcare, finance, and fashion domain.

SKILLS

Language & Tech : Dart, Java, Typescripts, Git, RESTful APIs.

Frameworks & Tools: Flutter, GetX, Provider, Dio, Android Studio, VS Code, Xcode.

Databases: Firebase, Hive, SQLite, Shared Preference.

Platforms: Firebase (Auth, Firebase, FCM), AWS, [Node.js](#), Cloud Functions.

Focus: Cross-platform UI, Clean code practices.

EXPERIENCE

Flutter Developer,

Aayan Infotech (july-2024 - present)

- Led full-cycle development of **Stylist Capsule** (fashion) user and stylist side.
- Integrate **Ring & Watch** SDKs for real-time health data sync.
- Build scalable UI with **GetX and Provider** using Dio-repository pattern for clean API logic.
- Added features: clinical trials, dynamic forms app appointment scheduling, push notifications.
- Contributed to the successful deployment of the Various and App Store apps on the Google Play Store.

Flutter Developer,

CRMMonster (Remote) (june-2023 - July 2024)

- Lead full cycle development of SalonX app user and admin side app.
- Backend Integration Seamlessly integrated backend APIs for real-time data exchange, enabling efficient communication between front-end and server.
- CRM feature implementation Implemented key CRM features like customer management and task tracking, ensuring comprehensive user capabilities.
- Deployment Success Contributed to the successful deployment of the CRMMonster app on Google Play store.

Flutter Developer,

Infonotics Software Solutions (Dec 2022 to June 2023)

- Developed **Market-Ring** financial integrated payment gateway, and crafted user-friendly UI for seamless backend integration.
- Developed a crypto mining app from scratch.

PROJECTS

Market Ring

[Link](#)

- Build social Media apps like instagram for traders using flutter and firebase.
- It has functionality like sharing a portfolio and making friends.
- Used Provider for State Management.

Ceptor

- It is a crypto mining app.
- Used Provider for State Management.

Style Capsule

- Cross Platform booking ecosystem. Developed Stylist app User and Stylist Side managing booking and marketplace feature in which buy and exchange clothes.
- Real time Firebase notification and deployed on app store and playstore.

Cartie App

- Build Cartie app from scratch in which users can watch course videos and take test and generate certificates.
- In this app user can take test after watching course video location wise.

Coyotex App

- Developed app from scratch in user can create trips with stops and also can add stop duration and later can he visit to that places.
- Used google Map in this project.

EDUCATION

AKTU Lucknow: Bachelor's of Technology | July 2018-July 2022

ACHIEVEMENTS & CERTIFICATES

- Completed Udemy course on flutter (Build 5 Apps Using Flutter and Firebase)
- Writing blogs on HasNode.
