Software Tester |Manual QA| Beginner Automation

Chandigarh, India|+919779394003|sukhvir.dba@gmail.com

## OBJECTIVE

---

Detail-oriented Manual QA Tester with hands-on experience in testing web and mobile applications. Looking for a QA position where I can leverage strong manual testing, defect tracking, and Agile methodology knowledge while enhancing my skills in automation testing using Selenium.

## PROFESSIONALSUMMARY

---

- 5+ years of experience in functional, regression, smoke/sanity, and UI testing for web and mobile applications.
- Strong knowledge of SDLC/STLC, test planning, test case design, execution, and defect reporting.
- Hands-on exposure to Agile/Scrum core monies: sprint planning, daily stand-ups, reviews, and retrospectives.
- Beginner in test automation with Selenium Web Driver (Java) and eager to build automation frameworks.
- Comfortable collaborating with developers, product owners ,and support teams to ensure quality releases.

## TECHNICALSKILLS

---

**Testing:** Functional Testing, Regression Testing, Smoke/Sanity Testing, Exploratory Testing, UI/UX Validation, Cross-browser Testing, Responsive Testing, Mobile App Testing

**Test Documentation:** Test Plans, Test Scenarios, Test Cases, Requirement Traceability, Bug Reports, Test Summary Reports

**Defect Management Collaboration:** Mantis, Click Up, Trello, Test Link, Slack, Dropbox

**Automation(Beginner):**Selenium Web Driver (Java), Locators, Basic Test Scripts, TestNG (basic understanding), Maven (basic)

**Tools Platforms:** Browser Stack, P Cloudy, Postman(basic) ,Git (basic), JIRA(basic)

**Web Basics :**HTML, CSS, DHTML

**Domain Exposure:** Payment integrations: Apple Pay, Google Pay, Stripe

**Operating Systems:** Windows, Linux

## PROFESSIONALEXPERIENCE

---

### Software Tester |GVR Tecno Labs Pvt. Ltd., Thrissur Kerala

*Jun2024–Present*

- Worked on **DRDO (Defence Research and Development Organisation) project** as part of the testing team.
- Performed end-to-end functional and regression testing for web and mobile releases across multiple environments.
- Prepared detailed test scenarios and executed test cases based on user stories, requirements, and acceptance criteria.
- Reported bugs with clearer production steps, logs, screenshots/videos, and severity/priority suggestions.
- Worked closely with developers to verify fixes, perform re-testing, and ensure no regression in impacted modules.
- Validated responsive, form validations, and payment flows across browsers and mobile devices.
- Supported UAT activities and production verification after hot fix deployments.

- Actively learning automation and converting a few high-priority regression cases into Selenium scripts (beginner level).

**Software Tester (Mobile, Web, Desktop Application)| Expronto Technologies Pvt. Ltd. (Remote), Mountain View, CA, USA**

*Mar 2022-Jun2024*

- Created and maintained reusable manual test suites to improve coverage of critical workflows.
- Executed complete regression cycles before releases and ensure stability across multiple builds.
- Performed exploratory testing to identify edge cases, usability concerns, and performance-impacting issues.
- Coordinated with cross-functional teams to re-produce issues and validate resolved defects.
- Used Mantis/Test Link /Trello of or tracking test execution and defects; maintained status updates for stake holders.
- Used Browser Stack and P Cloudy for testing across devices, OS versions, and browsers.
- Assisted in API validation(basic) using Postman for select ended points when required.

**Software Tester | Technocrats Horizons Compusoft Pvt. Ltd., SAS Nagar (Mohali), Punjab**

*Jul2021-Mar2022*

- Performed functional testing and UI validation for web and mobile applications.
- Prepared test cases, executed daily builds ,and reported defects with proper evidence.
- Verified bug fixes and ensured regression stability across modules.
- Participated in requirement discussions and provided test estimates and risk areas.

**Software Tester (Web) | Caymana Consulting (New York) C One Circle Technologies, Mohali, Punjab**

*Jan2017-Jan2020*

- Validated website functionality and responsiveness across all screen resolutions and major browsers.
- Executed functional and regression test cases and maintained defect logs in the bug tracking system.
- Ensured content accuracy ,navigation, forms, and overall UI consistency.

**ADDITIONAL RESPONSIBILITIES**

---

- Reviewed requirements and provided early feedback to avoid rework and reduced effects in later stages.
- Performed database/data validation checks (basic) to ensure correctness of displayed information.
- Worked on test data preparation and maintained test evidence for audit/release sign-off.
- Prepared release read in setup dates including pass/fail summary, open defects, and risk areas.
- Contributed improving testing processes by suggesting reusable check lists and regression coverage.

**EDUCATION**

---

- M.Tech in IT–Punjab Technical University ,Jalandhar 2019
- B.Tech in IT–Punjab Technical University, Jalandhar 2013
- Polytechnical Diploma in IT - PSTB&IT, Chandigarh 2010
- Senior Secondary Punjab School Education Board, Mohali 2009
