Carpooling

MOBILE APP DESIGN CONCEPT

Carpooling has proved to be an eco-friendly way to travel. It has resulted in establishing a more affordable and faster way to commute from one destination to another. Lesser cars on the roads mean less pollution and traffic blockades.

- Scalable Architecture
- Technical Services
- Cost Effective

Esferasoft

App **Features**

Social Media Login

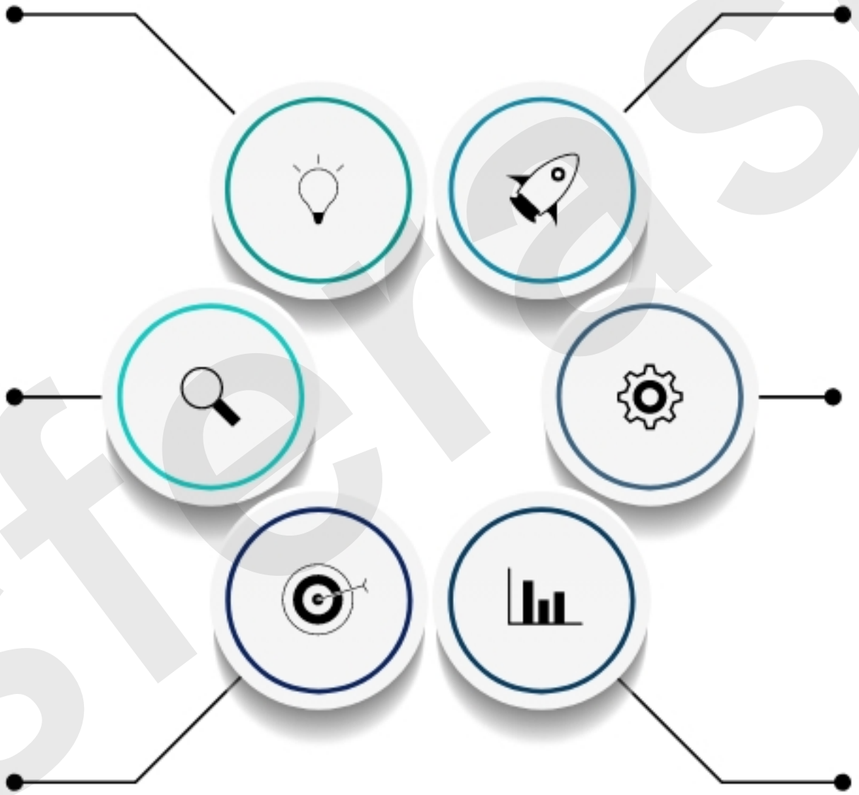
Passenger can register and login through social media like Facebook, Instagram, and others, as opposed to entering the details manually.

Extensive Search

This feature will enable the passengers to search the nearest available ride by specifying the requirements for the ride.

Instant matching

The app will optimize the search process and match the drivers to passengers who have booked for the carpool depending on the routes.



Find A Ride

This unique feature allows passengers to search for rides and enter the destination point based on their desired time.

Ride Management

Admin can manage all types of rides integrated into the app and dispatch cars to the specified pickup points.

Push Notifications

This feature sends alerts to both passengers and drivers about the destination, trip details, and other relevant information.

Estersoft

Driver **Features**

Cancel Ride before pickup

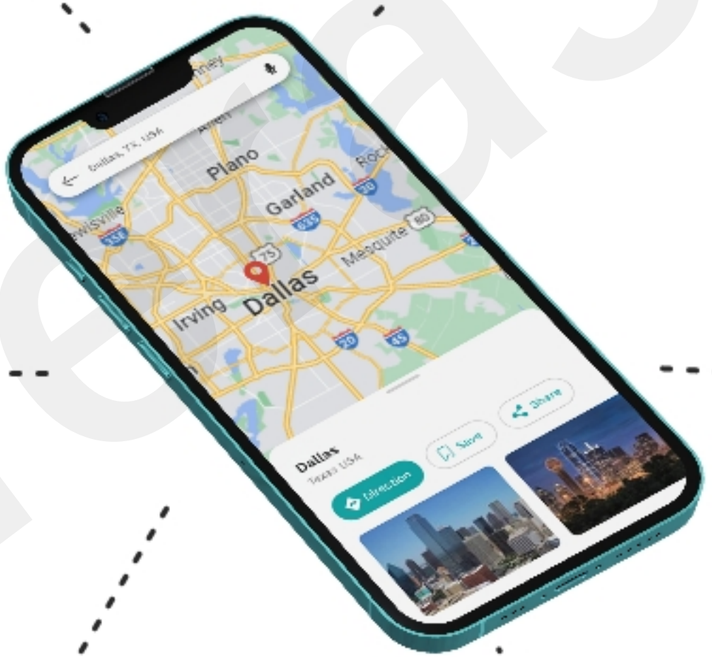
Pickup time preference

Driver will be able to select their pickup preferences according to time. For example, if they are planning to travel from home to work at 10:00 am then they can set the preference to 9:30 pickup time .

Passenger comfort

Here the driver will have an option to select whether they want to set a preference for a max of two people in the back seat. This is regarding the passenger's comfort.

Help and support



Riders Request details

Here the driver will be able to see all the rider's requests coming up matching their travel trip locations. The driver will be able to see all the rider's requests list and will be able to accept or reject the request.

Chat/call rider

The driver will be able to chat and message the rider before starting the ride and till the rider is picked up from the pickup location.

Rate passengers

Estegsoft

Admin **Features**

Driver management

Admin can approve/reject any Driver's account. Drivers would be able to get online only if their account is approved by the Admin. Admin can add/modify/ delete any Drivers.

Accept/Reject Bookings

Admin will be able to check all the trips have been accepted, declined or canceled by the driver. Admin will have the information of every individual driver.

Content Management

Admin will be able to manage all the application content like(Privacy Policy, Term & Condition, about us etc.)

Ride later bookings

Admin can view all the Trips booked for a later time. The System will auto assign the Driver for each Trip booked or the admin can manually assign the Trip to any Driver who is available at that time.

Manage Tariffs

Set and manage your fare with options for distance, time and flat pricing options. Set standard different prices by cities in all states in united states.

Help & Support

Users & drivers can create the support ticket for further assistance in any case of technical, service provider issue. Admin will get the notification for the support ticket.

Work Culture

Hiring

We are willing to understand new perspectives that come with allowing new up-and-coming developers to work with our experienced team to create a perfect blend of fresh ideas and skills.

Training

We have a supportive staff willing to welcome new faces with responsibility and an understanding of their ideas. This makes the initial training phase of our company an enjoyable learning experience instead of a pressured work environment.

Retention

Our employees have been loyal and loved the company. After 13 successful years in the industry, we have been able to keep most of our staff happily working with us with an urge to out do themselves every day.

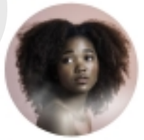
Clients Testimonials

Receiving positive feedback from its clients, the platform functions smoothly and well, while the project's remote work was managed effectively.

Chris Weber
CEO, Fashion Circle

Their professional and knowledgeable team delivered a handy tool that helps event marketers streamline their activities.



Vanita Kerai
Managing Director, Max7p

While their competitors struggle to meet growing demands, Esferasoft's responsive team can adjust to any environment and deliver practical solutions fast.

Jeb Blount
CEO, Sales Gravy
