ONLINESHOP

People can here shop Millions of Products with Best Shopping Deals and awesome shopping discounts.

ABOUT
THE PROJECT

People tend to avoid the entrance in the traditional locations, either because of the persistent sales rep who always tries you to buy something you don't want or because there's just no way for you to get to the store or you simply don't have time to spend out shopping.

PROBLEM STATEMENT

The idea of not having to deal with all of these setbacks got my interest, so I decided to do a study on how the users usually interact with shopping apps and if there was any way to make the experience a bit more simple and pleasant.

USER OBJECTIVE

The objective of this app is to make the experience of buying something online as easy and simple as possible, either if you are 18 or 60 years old, using the app should be as familiar as walking into a store.

PROPOSED SOLUTION

No distracting the users with countless different offers and products when he already found one he may want, there's an option for searching items that are on sale.

Don't force products to the users, let them find what they are looking for, if they don't know what they want, the home screen can help.

Don't make the users spend hours on the app when they just want to do a quick shop.

Don't make the users spend hours on the app when they just want to do a quick shop.

Make the understanding of deliveries and shipment as clear as possible (users usually like to know how long it will take for the product to get to them before they finish shopping).

Work Culture

Hiring

We are willing to understand new perspectives that come with allowing new up-and-coming developers to work with our experienced team to create a perfect blend of fresh ideas and skills.

Training

We have a supportive staff willing to welcome new faces with responsibility and an understanding of their ideas. This makes the initial training phase of our company an enjoyable learning experience instead of a pressured work environment.

Retention

Our employees have been loyal and loved the company. After 13 successful years in the industry, we have been able to keep most of our staff happily working with us with an urge to out do themselves every day.
