IPA:

User:

- Home:
  - ☐ When removing events from saved events pop up Are you sure you want to remove event from Saved Events.
  - ☐ See All Trending -> no events showing
  - ☐ See All Trending -> search function not functional
  - ☐ Filter: Show Followed Events filter should be Show Followed Organisers Events - functionality should be show all the events of the organisers that a user follows.

- Calendar:
  - The date in the ribbon should change with the start date of the event that is visible on screen. And events should be ordered by the Start Date in order, like this when the user scrolls downwards, the date in the ribbon should always increase.
  - Add to Calendar functionality? Apple calendar/Google calendar?

- MyEvents:
  - If there are no events:
    - Message should be changed to You Have No Upcoming/Past Events Saved
    - Explore events button should take you to Home Screen, right now it does nothing
  - Header at the top should be MyEvents not My Event

- Profile:
  - Terms and Conditions and Privacy Policy are not the same as the website
  - Discount section: Ticket offers and coupons in the profile section are not showing the actual ticket offers available but the default/fake ticket offers and coupons.
  - Organiser, if no organisers are followed, then message should be You do not follow any organisers.
  - Same for friends, No Friends to Show.
  - For friends, i registered with two new accounts and i did not see them available to add as friends.

- When adding a new card the app gets stuck on loading and the card is not added
- Query: Where do the Help and Support queries go to?

Event Detail Page:
- Share button functionality not implemented
- Add to Calendar function does nothing yet?
- Add to Calendar words are not centred on the button itself.
- About event, when you click read more, the description extends ok but when you click read less nothing changes.
- Readmore -> Read More and Readless -> Read Less

For Events that use other platform to sell tickets(link), it is not taking me to the link, instead showing empty ticket screen.
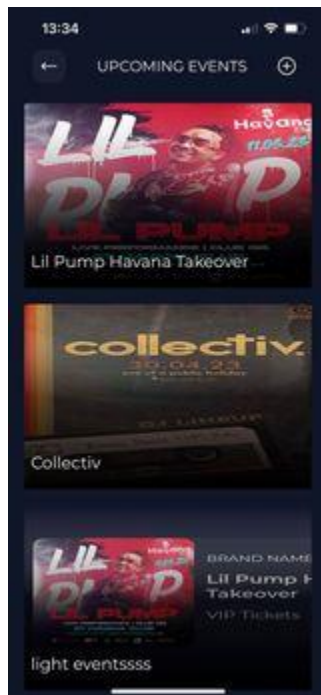

Organiser Profile:
- Image Download doesnt download the image, takes you to incorrect link
- Same for video
- Upcoming/Past events in organiser profile from user side, when the location is too long, the event bubble is overwritten see image below

- The numbers of followers and the number of events is not yet implemented, still showing 20K events.
-

Organiser:

- Home
    - See all bubble not fitting in whole screen of upcoming events
    - Ideally calendar in the bottom of home screen should show the same events that are shown in the user calendar.
    - Notifications not implemented/No functionality yet
    -

Very Important: When editing event for other platform there should be somewhere where to edit the ticket link. Just in case the organiser wants to change link or makes a mistake.

Editing Event:
- Error when trying to edit event.

Ram Navmi event appearing as past event with 4 days left?

APK:

On registration make sure there is a tick box to agree to terms and conditions

User:
- Home:
  - ☐ When removing events from saved events pop up Are you sure you want to remove events from Saved Events.
  - ☐ Filter: Show Followed Events filter should be Show Followed Organisers Events - functionality should show all the events of the organisers that a user follows.

Event Page: Buying tickets, coupons and price are not applied properly
Profile:
- ☐ Coupons and Offers in Discounts section are empty
- ☐ When editing preferences, the previously selected preferences should save, and be already selected.
- ☐ Why is there a Postcode requirement when adding a card?
- ☐ When adding friends and/or organisers, there should be an option to search.
- ☐ When adding/signing in with another account, there are no options to sign in with Google/Facebook.
- ☐ When adding a new account, if user selects register, he should be taken through the exact same process as normal registration. I was not asked my age, was not asked to enter any details or agree to terms and conditions. The ability to sign in/register with google and facebook should be there also.
- ☐ When adding a new account, the sign in needs to work the same as normal sign in. I WAS NOT PROMPTED TO ENTER A PASSWORD??!?!?
- ☐ Organiser, if no organisers are followed, then message should be You do not follow any organisers.
- ☐ Same for friends, No Friends to Show.

Calendar:
- ☐ The date in the ribbon should change with the start date of the event that is visible on screen. And events should be ordered by the Start Date in order, like this when the user scrolls downwards, the date in the ribbon should always increase.
- ☐ The top bar should not disappear when scrolling downwards in this section

Organiser:

☐ When creating a new event, it doesn't come shown in upcoming events immediately (so far tested tickets other platform). It was only showing 2 events (from a total of 5 from the organiser account).

☐ Edit ticket batches is still not implemented as discussed

☐

Website

When verifying email can we have a screen that shows ok your email has been verified click to login or return to login or something like that because right now it is just showing a white screen.

I accept terms and conditions and privacy policy when register button?
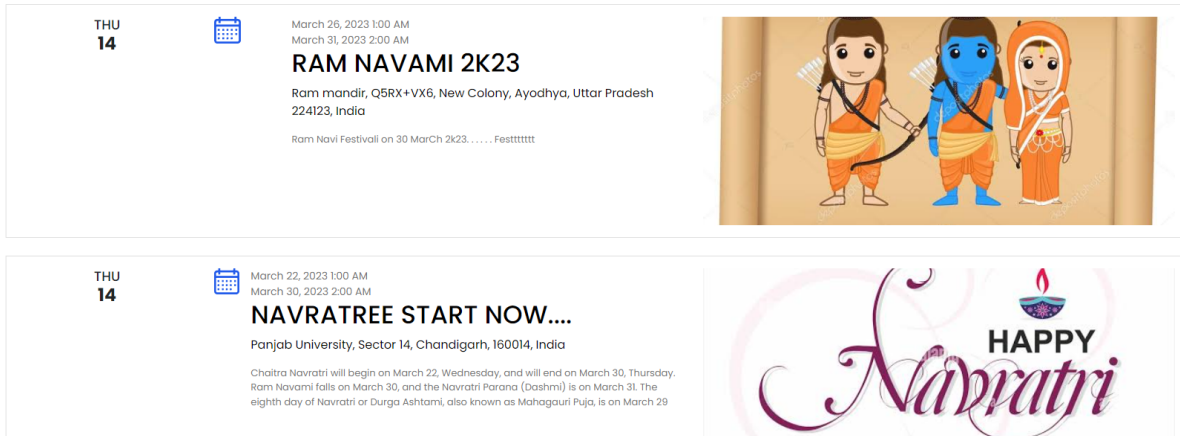

User:

Home:

- The scrolling events at the top should scroll through the featured events with the events clickable and opening the events page.
- The sizes of the bubbles are not good as half of the picture is being cut. Please arrange the aspect ratio of the pictures.
- Bubbles are having different sizes due to different length of the location. Please fix this as done in the application.

Calendar:

- No option to see the day view/ the week view like there is in the designs
- The events are all showing Thu 14

MyEvents:
- Can events be ordered by start date?

Taskbar:
- Search function not implemented

Organiser View Website:
- Metrics not loading, error occurred
- When creating an event, description should allow inline enter to split description in paragraphs.
- **When creating an event with other ticket platform organiser should not be prompted to create a new ticket batch!**
- When i created an event from the website, The name of the event came up as undefined. Please check this out.
- Cannot edit ticket batches, error occurred.
- Add complimentary tickets, crashed, error occurred
- Booking not yet started but the time is set to 00:00, so should be started.
- Create offers from website not yet working.
- Ticket Scanner gives me an error has occurred.
-

General:

- **Where can i switch from user view to organiser view and vice versa**
- **When i click on an event, the top of the page should appear**
- **When an event has more than one image, show them all not just 1 image**
- **There is no button to share and to save events.**
- **Add friends button in event details page does not work.**
- **Organiser profile, social links dont work yet, photos and videos not yet showing(currently showing default), no ability to open/download image/video**
- **Filter, option to clear all not there.**
- **If not logged in, user should still be able to see events in the Home Page and Calendar, then when the user tries to buy a ticket/save event/add to calendar/follow organiser, etc, user should be prompted to login.**
- **When an event has NO TICKETS/ Not Ticket Event, Buy Tickets Should be change to Free and redirects to nowhere.**
- **When an event is Other Ticket Platform, Buy tickets should redirect user to ticket link.**

User   Become An User

Short Description

As mentioned previously there should be somewhere that can change user view to organiser view similar to switch account in app.

Admin Panel:
General:
- Removed an event from the admin panel but still showing on the app, same as editing event ect.
- Create new event from admin panel, should give options of types of event, not ticketed, our platform and other platform.

Dashboard:
- Very different from the designs, please have a look at the designs.

Genres:

Events:
- Edit events: no image of the event comes up when editing an event, even when trying to see an event
