

1.

At the time of creating an account, a visitor chooses **GROUP ORDER** and creates an account, they should not land on the MEAL PLANS page anymore, rather after creating GROUP ACCOUNT and clicking submit a page should display with the text below...

Thank you for signing up. We make group ordering a snap.

Go to the homepage, select a restaurant, and click **START GROUP ORDER** to generate a link that you'll share with your group and set a per-person spending limit.

PROCEED

2.

remove **START ORDER** from the homepage. All the group ordering processes should be completed on the restaurant page. On the restaurant, page write **START GROUP ORDER**

3.

RESTAURANT PAGE

START GROUP ORDER

Below is the page that'll open when the **START GROUP ORDER** is clicked from above

PERKS99 GROUP ORDER

The easiest and most convenient way for groups to order food from their favorite restaurant. Get a unique link, everyone adds what they want to the cart, and has it delivered. No hassle!

Money was transferred to your wallet successfully. Your balance has been updated with the purchase plan.

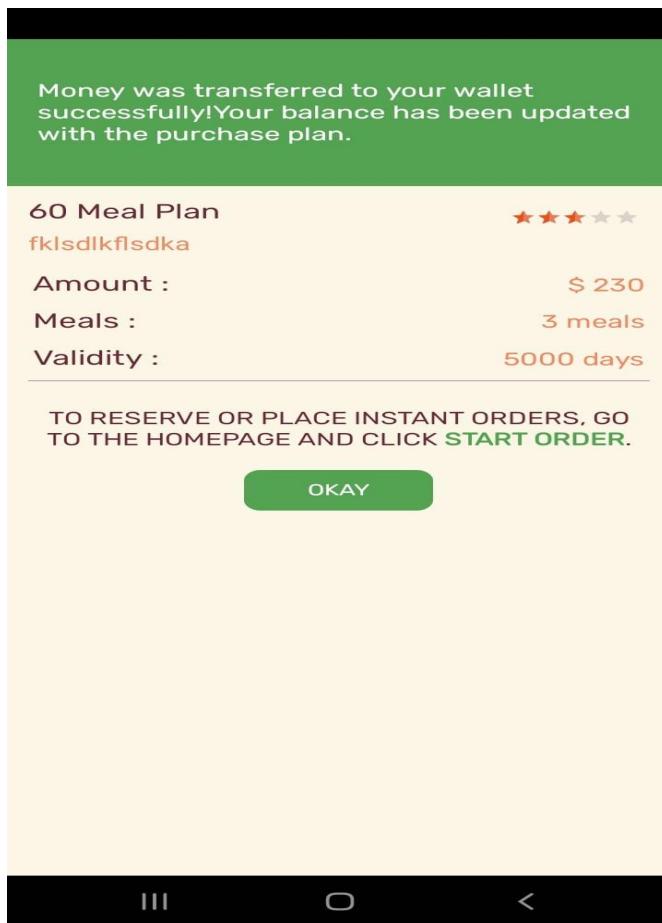

Meal plan: (numbers of meal plans)

Amount: (cost of the plan)

Validity: 30 days

To Reserve or place an instant order, go to the homepage.

OKAY

(10)

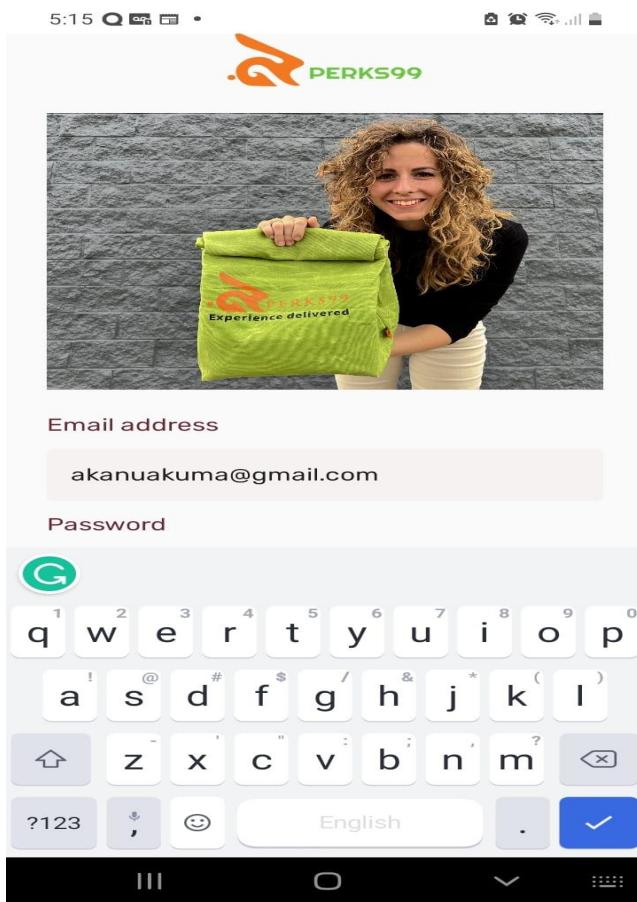

On the Wallet page, I click Add Balance, but the page is blank no place to add card info.
Delete Add Balance and replace it with Add Fund and add Meal Plan (when click it should open)

(11)

After ordering the wallet is not deducting the amount

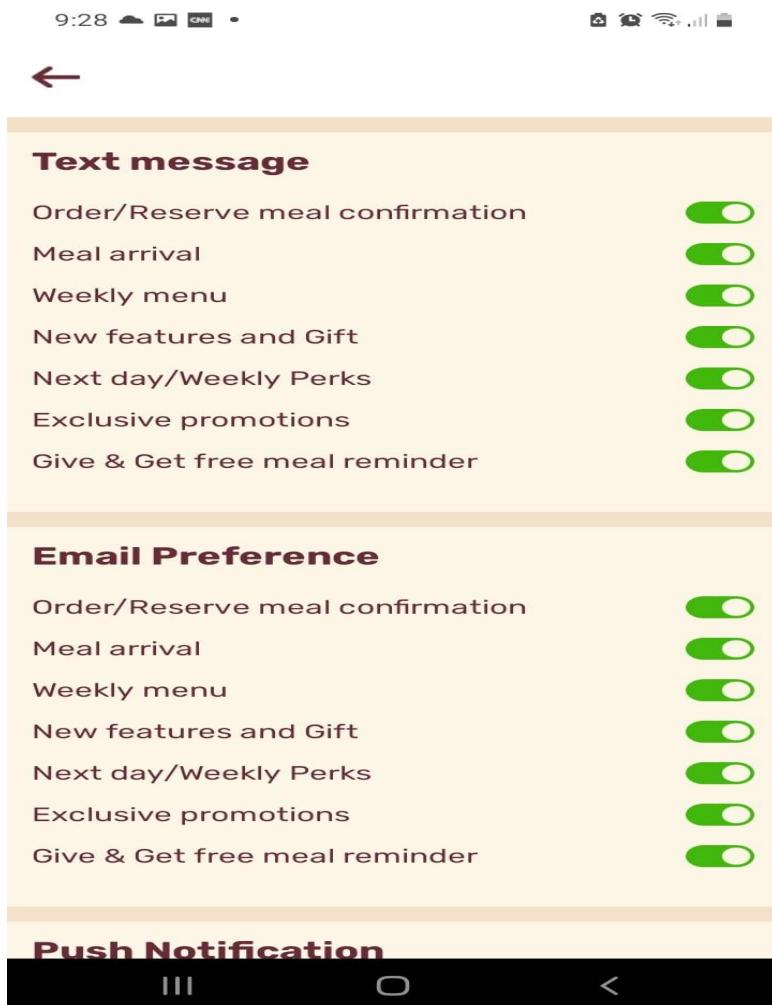

(12)

When entering info on any page, the keyboard always covers the area to type, you can not see what you're typing...

(13)

On Settings, can you check all the boxes and let the customers uncheck them? check attached.
